EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation.)

Council Directive of 2 April 1979 on the conservation of wild birds (79/409/EEC) provides for the conservation of wild birds by, among other things, classifying important ornithological sites as Special Protection Areas for them. The effect of these Regulations is to designate a site as a Special Protection Area in accordance with Article 4 of the Directive and to provide that contravention of the provisions of these Regulations shall constitute an offence.

Under Article 5 of the Directive all species of birds are afforded protection from disturbance, capture and damage to nests and eggs, not just the birds listed on Schedule 3 (with the exception of those birds covered under Articles 7 for hunting, and Article 9 where derogations are listed).

Please note that operations/activities other than those listed at Schedule 4 to these Regulations, such as effluent discharge, planning permission, aquaculture, fishing or forestry require a licence or permission from the appropriate consent authority.
