## EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

The purpose of these Regulations is to streamline the administration of the legislation on the shipments of hazardous waste exclusively within Ireland so as to provide a better and more consistent level of implementation generally. In line with the external TFS system of control for shipments of waste from Ireland they provide for the designation of Dublin City Council as the sole competent authority responsible for the implementation of article 33 of the Waste Shipments Regulation (EC) No. 1013/2006 (the TFS Regulation) with effect from 1 July 2011. This will have the effect of linking both systems and facilitate better management controls on shipments of hazardous waste. In addition the internal tracking system will be an electronic system-as opposed to a paper based system which has applied up to the commencement of these Regulations.

In addition, the Regulations:

1. give further effect to article 19(2) of the Waste Framework Directive (Directive 2008/98/EC) of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives.(S.I. No. 419 of 2007)
