EXPLANATORY NOTE

(This note is not part of the Instrument and does not purport to be a legal interpretation).

These Regulations amend Schedule 1 to the European Communities (Dangerous Substances and Preparations) (Marketing and Use) Regulations, 2003 (S.I. No. 220 of 2003), as last previously amended by the European Communities (Dangerous Substances and Preparations) (Marketing and Use) (Amendment) Regulations 2007 (S.I. No. 746 of 2007).

The Regulations transpose Directive 2007/51/EC of the European Parliament and of the Council of 25 September 2007 amending Council Directive 76/769/EEC relating to restrictions on the marketing of certain measuring devices containing mercury.

Under the Regulations, from 3 April 2009, mercury may not be placed on the market in fever thermometers or in other measuring devices intended for sale to the general public.

The restriction on other measuring devices intended for sale to the general public does not apply to measuring devices more than 50 years old on 3 October 2007, or to barometers until 3 October 2009. This additional phasing-out period for the placing on the market of mercury barometers is provided for in Directive 2007/51/EC so as to allow manufacturers to adapt their business in line with the restrictions and move over to the production of mercury-free barometers.

In accordance with Directive 2007/51/EC only placing on the market of new measuring devices is restricted by the Regulations. This restriction does not apply to devices that are already in use in the market or sold second hand.
