FOLLOWING**

Failure to complete this form or attach the necessary documentation, or the submission of incorrect information or omission of required information will lead to the invalidation of your application. Therefore please ensure that each section of this application form is fully completed and signed, entering n/a (not applicable) where appropriate, and that all necessary documentation is attached to the application form.

ADDITIONAL INFORMATION

It should be noted that each planning authority has its own development plan, which sets out local development policies and objectives for its own area. The authority may therefore need supplementary information (i.e. other than that required in this form) in order to determine whether the application conforms with the development plan and may request this on a supplementary application form.

Failure to supply the supplementary information will not invalidate your planning application but may delay the decision-making process or lead to a refusal of permission. Therefore applicants should contact the relevant planning authority to determine what local policies and objectives would apply to the development proposed and whether additional information is required.

OTHER STATUTORY CODES

An applicant will not be entitled solely by reason of a planning permission to carry out the development. The applicant may need other consents, depending on the type of development. For example, all new buildings, extensions and alterations to, and certain changes of use of existing buildings must comply with building regulations, which set out basic design and construction requirements. Also any works causing the deterioration or destruction of the breeding and resting places of bats, otters, natterjack toads, Kerry slugs and certain marine animals constitute a criminal offence unless covered by a derogation licence issued by the Minister for Culture, Heritage and the Gaeltacht (pursuant to Article 16 of the Habitats Directive).

It is the responsibility of persons or entities wishing to use any personal data on a planning application form for direct marketing purposes to be satisfied that

they may do so legitimately under the requirements of the Data Protection Acts 1988 to 2018. 4. A brief description of the nature and extent of the development, including reference to the number and height of buildings, protected structures, etc.

A prospective applicant must send 6 printed copies of the request, together with one copy of the request in a machine readable form on a digital device, to the planning authority or each authority where the proposed strategic housing development would be situated in the area of more than one authority.
- 2 In this form, 'prospective applicant' means the person seeking the planning permission, not an agent acting on his or her behalf. Where there is more than one applicant, the details of all applicants should be inserted, as required, on the form.
- 3 Where the plans have been drawn up by a firm/company the name of the person primarily responsible for the preparation of the drawings and plans, on behalf of that firm/company, should be stated.
- 4 In this form, 'planning authority' means the planning authority in whose area the proposed strategic housing development would be situated. Where the proposed development would be situated in the area of more than one planning authority, the relevant details should be supplied separately in respect of each such authority.
- 5 The site location map shall be drawn to a scale (which shall be indicated thereon) of not less than 1:500, with the site boundary clearly delineated in red.
- 6 Where available, please provide the application site boundary, as shown in the submitted plans/drawings, as an ESRI shapefile in the Irish Transverse Mercator (ITM IRENET95) co-ordinate reference system. Alternatively, a CAD file in.dwg format, with all geometry referenced to ITM, may be provided.

An EIAR will be required in respect of sub-threshold strategic housing development where the Board considers that the proposed development would be likely to have significant effects on the environment. Under section 7(1)(a)(i)(I) of the Planning and Development (Housing) and Residential Tenancies Act 2016, a prospective applicant may, following the pre-application consultation meeting with the Board, request the Board to make an EIA screening determination in respect of a proposed strategic housing development.

The relevant local authority should be contacted in relation to national monuments in its ownership or guardianship. If a proposed strategic housing development affects or is close to a national monument that is in the ownership or guardianship of the Minister for Culture, Heritage and the Gaeltacht or a local authority, or is the subject of a preservation order or a temporary preservation order, a separate statutory consent for the development is required from that Minister under the National Monuments Acts.

(b) Other Monuments

The Record of Monuments and Places (RMP), established under section 12 of the National Monuments (Amendment) Act 1994, is available for each county in the public libraries and principal local authority offices in that county. If a proposed strategic housing development affects or is close to a monument listed in the RMP, there is a separate requirement to give two months advance notice of any proposed work to the Minister for Culture, Heritage and the Gaeltacht. No work may commence within the two month period except in the case of urgent necessity and with the consent of that Minister.

13 Part V of the Planning and Development Act 2000 applies where—

- the land is zoned for residential use or for a mixture of residential and other uses,
- there is an objective in the Development Plan for the area for a percentage of the land to be made available for social and/or affordable housing, and

- 2 In this form, ‘applicant’ means the person seeking the planning permission, not an agent acting on his or her behalf. Where there is more than one applicant, the details of all applicants should be inserted, as required, on the form.
- 3 Where the plans have been drawn up by a firm/company, the name of the person primarily responsible for the preparation of the drawings and plans, on behalf of that firm/company, should be stated.
- 4 In this form, ‘planning authority’ means the planning authority in whose area the proposed strategic housing development would be situated. Where the proposed development would be situated in the area of more than one planning authority, the relevant details should be supplied separately in respect of each such authority.
- 5 The site location map shall be drawn to a scale (which shall be indicated thereon) of not less than 1:500, with the site boundary clearly delineated in red.
- 6 Where available, please provide the application site boundary, as shown in the submitted plans/drawings, as an ESRI shapefile in the Irish Transverse Mercator (ITM IRENET95) co-ordinate reference system. Alternatively, a CAD file in .dwg format, with all geometry referenced to ITM, may be provided.
- 7 See article 292(5) of the Planning and Development Regulations 2001, as amended.
- 8 An Environmental Impact Assessment Report (EIAR) is required to accompany an application for permission for strategic housing development of a class set out in Schedule 5 of the Planning and Development Regulations 2001-2018 which equals or exceeds, as the case may be, a limit, quantity or threshold set for that class of development. An EIAR will be required in respect of sub-threshold strategic housing development where the Board considers that the proposed development would be likely to have significant effects on the environment. Under section 7(1)(a)(i)(I) of the Planning and Development (Housing) and Residential Tenancies Act 2016, a prospective applicant may request the Board to make an EIA screening determination in respect of a proposed strategic housing development. Where an EIAR is being submitted with an application, it must be accompanied with a copy of the confirmation notice received from the EIA

portal in accordance with article 97B(2) of the permission regulations that certain information in respect of the EIAR has been entered onto the portal.

- 9 An appropriate assessment (AA) is required to accompany an application for permission for strategic housing development in cases where it cannot be excluded that the proposed development would have a significant effect on a European site. Under section 7(1)(a)(i)(II) of the Planning and Development (Housing) and Residential Tenancies Act 2016, a prospective applicant may request the Board to carry out an AA screening in respect of a proposed strategic housing development.
- 10 See article 295 of the Planning and Development Regulations 2001, as amended.
- 11 Gross floor space means the area ascertained by the internal measurement of the floor space on each floor of a building (including internal walls and partitions), i.e. floor areas must be measured from inside the external wall, disregarding any floor space provided for the parking of vehicles by persons occupying or using the building or buildings where such floor space is incidental to the primary purpose of the building.
- 12 Insert number of childcare spaces.
- 13 (a) National Monuments

A list of national monuments in the ownership or guardianship of the Minister for Culture, Heritage and the Gaeltacht is available for download from the National Monuments Service website (www.archaeology.ie) under *National Monuments in State Care*. A list of preservation orders is similarly available from this website (under *Monument Protection*). The relevant local authority should be contacted in relation to national monuments in its ownership or guardianship. If a proposed strategic housing development affects or is close to a national monument that is in the ownership or guardianship of the Minister for Culture, Heritage and the Gaeltacht or a local authority, or is the subject of a preservation order or a temporary preservation order, a separate statutory consent for the development is required from that Minister under the National Monuments Acts.

(b) Other Monuments

The Record of Monuments and Places (RMP), established under section 12 of the National Monuments (Amendment) Act 1994, is available for each county in the public libraries and principal local authority offices in that county. It is also available for download from the National Monuments Service website (www.archaeology.ie) under *Publications, Forms & Legislation*. If a proposed strategic housing development affects or is close to a monument listed in the RMP, there is a separate requirement to give two months advance notice of any proposed work to the Minister for Culture, Heritage and the Gaeltacht. No work may commence within the two month period except in the case of urgent necessity and with the consent of that Minister.

14 Part V of the Planning and Development Act 2000 applies where—

- the land is zoned for residential use or for a mixture of residential and other uses,
- there is an objective in the Development Plan for the area for a percentage of the land to be made available for social and/or affordable housing, and
- the proposed development is not exempt from Part V.

15 Under section 96(13) of the Planning and Development Act 2000, Part V does not apply to certain housing developments by approved voluntary housing bodies, certain conversions, the carrying out of works to an existing house or the development of houses under an agreement made under section 96 of the Act.

16 All maps, plans and drawings, should comply with articles 297 and 298 of the Planning and Development Regulations 2001 to 2018.”.

GIVEN under my Official Seal,
26 July 2018.

EOGHAN MURPHY,
Minister for Housing, Planning and Local Government.
