11.—(1) At the time fixed for the close of the poll the presiding officer shall take steps to ensure that no further electors are admitted to the polling station, but any elector on the premises at that time shall, subject to the provisions of the relevant Act or Regulations and this Part, be entitled to vote.

(2) As soon as practicable after the close of the poll, the presiding officer, after ensuring that the lock referred to in *section 8* on each voting machine in the polling station has not been interfered with, shall cause a statement showing a list of the candidates on the ballot paper at the election or two questions on the ballot paper in the case of a referendum and the total number of votes recorded on the machine at the polling station to be produced by the machine. The statement shall be signed by the presiding officer and witnessed by another person in the polling station. The presiding officer shall then open the lock and remove the cartridge or disc from each such voting machine so that no further votes can be entered therein.

(3) The presiding officer shall immediately send the said cartridge or disc together with the statements produced at the opening and close of the poll referred to in *section 9(1)* and *subsection (2)* to the returning officer or to the local returning officer together with a polling station reconciliation account, in such form as may be directed by the Minister, made out by him or her and shall seal up in separate packets—

information that would have been recorded in that statement, being information displayed on the voting machine's display screen, together with any other information specified by the form to be entered on it, shall be entered on a form directed by the Minister for the purposes of this subsection. The form shall be signed by the presiding officer and witnessed by an agent or other person in the polling station.

The returning officer or local returning officer shall cause a printed statement to be produced by the voting machine showing the names of the candidates on the ballot paper at the election or the two questions on the ballot paper in the case of a referendum and that no votes are cast or recorded on the machine. The returning officer or local returning officer shall then in the presence of agents and not less than 2 members of his or her staff enter the preferences shown on the postal and special voters ballot papers on the ballot paper displayed on the voting machine. After a vote preference or preferences has or have been entered on the said ballot paper from each postal or special voter ballot paper, the returning officer or local returning officer shall then press the cast vote button on the voting machine.

(6) On completion of the entry of the votes in the voting machine, the returning officer or local returning officer shall cause a printed statement to be produced by the machine showing the list of candidates on the ballot paper at the election or the questions on the ballot paper in the case of a referendum and the number of votes recorded.

The form shall be signed by the returning officer or local returning officer and witnessed by an agent or if no agent is present by another person present.

The returning officer or local returning officer shall, on request, allow an agent to be present at that procedure and shall on request provide a copy of the second-mentioned statement to any agent.

[2004.] *Electoral (Amendment) Act 2004.* [No. 15.]

(4) When the cartridges or discs are received from all the voting machines for the constituency or local electoral area and are dealt with in accordance with *subsection (2)*, the returning officer or local returning officer shall cause the constituency vote counting machine to mix the votes recorded in all the cartridges or discs inserted on the said machine, to create a table of the mixed votes which shall be numbered in consecutive order, the number “1” being assigned to the vote placed highest in the table, the number “2” being assigned to the vote placed next highest in the table and so on, and to proceed to cause the said machine to count the votes in accordance with the provisions of the relevant Act or Regulations and this Act.
